This will work for us. Treasury will draw up and NDA for the terms and I'll forward to you for signature as soon

as I get it.

Subject: Sears Credit

Jim,

Our proposal is below for Sears credit.

- Cash terms
- 4% cash and 4% anticipation, bringing the total to 8%
- Hankook understand that the time would be 5 days. This is based on receipt of goods by Sears
- Hankook would hold 500k in subsidy and at the end of each quarter the subsidy dollars would be calculated and Hankook would release any amount over 500k
- Orders would be regulated based on the 500k

Let me know as soon as you can.

Shawn Denlein

Eric,

Thanks for the feedback.

I added one more worksheet where you can see all open invoices excluding any short payment. – Document #
is invoice #.

Please see attached list.

Any feedback would be really appreciated.

Thanks.

CY

All of the short payments would have to come through me for review. Anything you have that has a late payment I can follow up with our accounting team on; I will just need help separating this out.

Underpaid invoices appear to be the majority. Starting with those:
If it was because of a quantity claim we would just need proof of delivery.
If it was because of a cost claim; we would just need proof that the price changed (and we were notified of the change in advance) before the purchase date.

Enterprise Security Team Alert: This email originated from outside of the organization. Please use caution when opening messages from external sources.

Eric,

I am not sure if you can help this out.
Normally our AR department is communicating with AP from Sears, but recently we haven't gotten payments and we have quite a few open invoices remaining unpaid.

Can you please look into it? If you find any issue on our invoices, then let us know it.
I would really appreciate your support.

Thanks.

CY
